Note: The funding above includes only \$6 million in FY 2004 from ADOT, and not the full \$8 million in that year as currently programmed in the MAG 2001-2005 TIP.

ADOT will seek opportunities to add back \$2 million in funding in a future update to the TIP. Inflation is projected to be 3% per year and is reflected in the "(Nominal)" uses totals.

All funding sources assume 20% local match. Any additional costs for additional land/added parking stalls in excess of the amounts/quantities identified in the program will be the responsibility of the local agency sponsoring the park-and-ride. The negative closing balance shown at the end of the CASHFLOW analysis is expected to be reduced by early completion of phases of some park-and-rides, thereby reducing costs for inflation.
